ABOUT GAME

The quail season will soon open in Cumberland county and I am desirous and very anxious that every sportsman observe the game laws and purchase their hunting license before he goes hunting. Heretofore the game laws have not been observed as they should have been, and the result has been that the game has been destroyed without protection.

I am appointing deputy wardens in your county for the protection of your game and fish and this department is anxious indeed that all sportsmen co-operate with me and see that the game laws are enforced and that every hunter buys his license. Your license fund goes to this department to help defray the expenses of enforcing the law for the protection of game and fish, and the law provides that the department must live within its revenue, or, in other words, they can use no fund except that derived from the sale of licenses and fines from their convictions.

I am trying to make you a good game warden. I am a sportsman and I know that the majority of the sportsmen in your county are real men and glad to assist the department all they can, and can render this department valuable service by speaking a good word for the protection of the game to your friends and neighbors insist that they equip themselves with hunting licenses before the season opens. I am trying to enforce the law on a high plane and I am instructing my wardens to disregard frivolous cases, but to prosecute the willful violators.

The revenue in some counties is so small it is impossible to employ a warden at a salary until the revenue derived from the county is sufficient to justify the department to pay salaries.

I will greatly appreciate all co-operation and investigation of the deputies. I expect every sportsman and the citizens generally to assist me to stock every stream in Tennessee with fine fish, but before I can do so, I must have the full co-operation, and the dynamiting and seining will have to be stopped.

C. P. WILLIAMS,
 State Game Warden.
